## Statistics Summer Assignment 2021-2022 School Year

1. Compare and contrast the measures of central tendency (mean, median, mode and midrange). Give examples of when the mean would be a preferred measure, and when the median would be a preferred measure. Explain your answer.
https://www.expii.com/t/word-problems-when-to-use-mean-median-and-mode-4645
2. Find the mean, median, mode and midrange for the number of natural gas drilling sites in Pennsylvania counties with drilling operations listed below. Discuss the differences in these measures, and which best describes the center of the data. Explain your answer.

| 9 | 112 | 1 | 1 | 6 | 1008 | 109 | 6 | 14 | 58 |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| 20 | 136 | 85 | 3 | 58 | 185 | 6 | 415 | 2 | 43 |
| 26 | 2 | 2 | 2 | 473 | 53 | 76 | 19 | 41 | 462 |
| 693 | 1 | 2 | 560 | 4 | 191 | 98 |  |  |  |

3. Use the website https://stattrek.com/survey-research/sampling-methods.aspx to research the following:

Explain what is meant by Probability Samples and Non-probability samples.
Determine how each of the sampling methods is executed and give an example for which each method would best be used:

Simple Random Sampling
Systematic Sampling
Stratified Sampling
Cluster Sampling
Convenience Sampling
Multi-stage Sampling

Additional for AP Statistics
4. Use the website https://stattrek.com/statistics/dictionary.aspx to complete the following vocabulary definitions.

Population
Sample
Census
Parameter
Statistic
Categorical Variable
Quantitative Variable

Discrete Variable
Continuous Variable
Independent Variable
Dependent Variable
Experiment
Experimental Design
Factor
Blinding
Control Group
Double Blinding
Treatment
Placebo
Bias
Confounding
