Compassion at the Core of Education

At Knox, we believe compassion is the cornerstone of education. True learning only happens when students feel seen, valued, and understood. That is why we create **personalized pathways for every learner** to flourish - whether in academics, athletics, or the arts.

More than a school, Knox is a space where students can discover their strengths, build confidence, and grow into the best version of themselves. This is what we do every single day - and the impact is visible.

College Counseling with Clarity and Confidence

The college application process is intimidating and stressful - but the Knox College Counseling Experience is stress-free. Using a program designed by seasoned Knox educators, our **students are empowered to take control of the process** and parents can have peace of mind knowing their children will be guided by experts every step of the way.

Our comprehensive, student-centered program equips Knox graduates with a distinct competitive advantage as they enter top universities. This is just one of the many benefits students and parents deserve when investing in a private school education.

Exceptional College Outcomes, Inspiring Futures

Knox graduates are guided from day one to find a college that is "the perfect fit." Whether that perfect fit is a large, public research university or a small, private boutique college, art & design school or engineering institute, Knox helps students achieve acceptance into their dream colleges.

With an average graduating class of 35 students, Knox seniors earn an extraordinary **\$3.5-4.5 Million in merit scholarships annually.**

Columbia University's Barnard College

"I will carry this last chapter of my life in my heart always. Thank you to the teachers who taught me so much more than just lessons in the curriculum. I learned about my passions, my goals, and the makings of my soul. Thank you all for giving me such an amazing high school experience!"

Kyle Persaud
Cornell University

"My time at Knox was very transformative. Knox gave me the freedom to create new opportunities, programs, and activities based on my interests. With the support of the faculty and administration, I have been able to reach my full leadership potential, discover my strengths, and work on my weaknesses."
